Clinical Initiatives

Chronic Care Management Program (CCMP)

Mission

The mission of the Chronic Care Management Program is to:

- Identify and assist Medicaid beneficiaries with chronic conditions in accessing clinically appropriate health care information and services;
- Coordinate the efficient delivery of health care to this population by removing barriers, bridging gaps, and avoiding duplication of services; and
- Educate, encourage and empower this population to appropriately self-manage their chronic conditions.

Goal

The goal of the Chronic Care Management Program is to improve health outcomes and reduce costs for Medicaid beneficiaries with chronic conditions.

Approximately 25,000 Beneficiaries

Care Coordination Program (CCP)

Mission

The mission of the Care Coordination Program is to:

- Provide intensive case management for the **most complex** Medicaid beneficiaries in accessing clinically appropriate health care services, in furtherance of a medical home;
- Coordinate the efficient delivery of health care to this population by removing barriers, bridging gaps, and avoiding duplication of services; and
- Educate, encourage and empower this population to self-manage their chronic conditions.

Goals

The goals of the Care Coordination Program are to:

- Facilitate the beneficiary-provider relationship by offering services that assist providers in tending to the intricate medical and social needs of beneficiaries without increasing the administrative burden;
- Support providers by providing intensive case management to the beneficiary between visits to enable the plan of care to be successful; and
- Improve health outcomes, decrease inappropriate utilization of services, and increase appropriate utilization of services.

Approximately 1,200 Beneficiaries

Buprenorphine Program

Mission

The mission of the Buprenorphine Program is to increase access to effective treatment for opiate dependency.

Goals

The goals of the Buprenorphine Program are to:

- Increase access for patients to Buprenorphine services;
- Increase the number of physicians in Vermont licensed to prescribe Buprenorphine; and
- Support practices caring for the opiate dependent population.
